

Dielectric Labs

Inc. Capacitors, Hi-K Ceramics, and Custom Thin Film Components have over **200,000,000** Life Test Hours **With No Failures!**

Since 1990 DLI has been manufacturing Space qualified parts to MIL Standards. In late 2012 QPL will be launched.

When failure is not an option, reliability means everything. You can turn to DLI with confidence for Space rated components.

With nearly **40 years of experience** DLI is the preeminent ceramic component manufacturer in the industry.

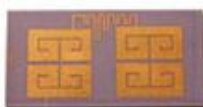

Recently our components have been built into the Juno Spacecraft, and Mars Rovers.
